

#### MANAGING SOCIAL ISOLATION IN THE TIME OF COVID-19

Dear Friends and Colleagues,

As you know, since the advent of COVID-19, life has become more complicated for both family and professional caregivers. This year, Teepa Snow helped provide a framework for adapting dementia care to meet the demands of life during the pandemic. On August 29, 2020, the AFSC free video conference *Managing Dementia in the Time of COVID-19* went live across the Commonwealth, the nation, and the world, bringing essential and timely dementia education to more than 1,000 professional and family caregivers.

Now, through an agreement between the AFSC and Teepa Snow, we are able to offer a replay of the conference distilled into six one-hour videos. Starting tomorrow for a limited time, all six parts of the conference will be available for the AFSC community on our website [alzheimerscapecod.org](http://alzheimerscapecod.org). To launch the series, we're presenting the video *Managing Social Isolation in the Time of COVID-19*. To view, click on the link above and enter the password **alzsupport**. All videos are password protected.

*We hope you enjoy the video!*

**Molly Perdue, Melanie Braverman, and the AFSC Team**

**If you or anyone you know is in need of the services we provide,  
please call us at (508) 896-5170.**

*Until there's a cure, there's community.*
